MUNICIPAL REGULATIONS.

FOR PAYMENT OF BILLS AGAINST THE CITY.

All persons furnishing materials or service for the city, or aid to the city poor, should be particular to take the name of the person ordering such service, material, or aid, and should *know* that the person is duly authorized to contract such liability.

The city will not be holden for merchandise sold or delivered on city poor account, except on the written order of the overseer of the poor and for no longer time than until his successor shall have been appointed and qualified.

Duplicate copies will be required of all bills payable by the city, furnished on county poor account.

All bills against the city must be approved by the person authorizing the charge; and unless this is done, no action can be had upon the bill by the Committee on Accounts and Claims, and no order will be given for its payment.

Bills so certified should be left with the city clerk on or before the second day of the month.

If approved by the Committee on Accounts and Claims, they will be ready for payment on Thursday following the regular monthly meeting of the city government.

The regular monthly meetings of the city government occur on the second Monday of each month.

ARTHUR E. ROBY,
City Clerk.

ORDINANCES AND RESOLUTIONS.

PASSED DURING THE YEAR ENDING JANUARY 11, 1926.

CITY OF CONCORD—ORDINANCES.

AN ORDINANCE RELATING TO THE BOND OF THE CITY TREASURER.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECT. 2. (c) Clerk in the office of the Board of Health, twenty-two dollars per week.

This ordinance shall take effect May 1, 1925.

Passed May 11, 1925.

AN ORDINANCE REGULATING THE PRODUCTION AND SALE OF MILK AND OF CERTAIN MILK PRODUCTS, AND FOR THE PROTECTION OF THE PUBLIC HEALTH.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. Classifications of Milk. Milk sold in the City of Concord shall be of three classifications: (a) milk, unqualified, (b) pasteurized milk, (c) special quality milk. Concentrated milks shall not be construed as coming within the purview of this ordinance.

SECT. 2. Raw Milk. (a) Milk, unqualified, shall be raw milk drawn from tuberculin-tested and non-reacting cows, and shall contain not more than 100,000 bacteria per cubic centimeter nor more than 10 organisms of the colon group per hundredth cubic centimeter when plated upon Endo's or similar approved medium. At the time of applying for a license the dealer shall file a certificate, signed by a veterinarian approved by the Board of Health, stating that all cows in the herd or herds from which the milk is produced have been tuberculin-tested by him within one year and found to be free from tuberculosis, together with a detailed report of such tests.

SECT. 3. Pasteurized Milk. (b) Pasteurized milk shall be milk which has been uniformly heated to a temperature of not less than 142 nor more than 147 degrees Fahrenheit for not less than thirty minutes, then cooled immediately to a temperature of 50 degrees Fahrenheit or lower and maintained at that temperature until sold. The temperature and time of heating and holding and the temperature of cooling shall invariably be recorded by an automatic recording device and a duplicate of such device shall be on hand and in good repair at all times. The charts shall be numbered and dated, shall be retained in a locked case while being recorded, and shall be conveniently filed and preserved for a period of not less than three months, to be available for inspection at all times by the Board of Health. Milk intended for pasteurization shall not be more than forty-eight hours old, shall contain not more than 500,000 bacteria per cubic centimeter (nor more than 50 organisms of the colon group per hundredth cubic centimeter) at the time of pasteurization, and shall have been produced in conformity with the conditions hereafter specified. At the time of sale such milk shall contain not more than 25,000 bacteria per cubic centimeter, nor more than 5 organisms of the colon group per hundredth cubic centimeter. Milk shall not be repasteurized, nor shall any milk be sold which has been subjected to pasteurization in a plant so located as not to be reasonably accessible to control and inspection by the Board of Health of this city.

SECT. 4. Special Milk, "Grade A" Milk. (c) Special milk shall be raw milk in the production and distribution of which all the requirements as herein stipulated for milk shall have been complied with and, in addition, which shall contain not more than 25,000 bacteria per cubic centimeter and no organisms of the colon group in a hundredth cubic centimeter, plate method. The bottle in which this grade is distributed shall have a sterile hood or cap so designed as to completely cover the lip. This milk shall test not less than four per cent of fat. All raw milk which may be sold under such names as "baby milk," or similar ones denoting special quality shall conform in all respects to the requirements here specified for special milk.

SECT. 5. Cream. Cream shall contain not more than 500,000 bacteria per cubic centimeter nor more than 50 organisms of the colon group per hundredth cubic centimeter. Pasteurized cream shall contain not more than 50,000 bacteria per cubic centimeter nor more than 10 organisms of the colon group per hundredth cubic centimeter. Cream shall be produced from the milk of healthy animals and shall be subject to the same requirements as to sanitary production and distribution as are herein specified for milk.

SECT. 6. Ice Cream. All milk and cream used for the manufacture within the City of Concord of ice cream for sale shall have been pasteurized and shall comply with the stipulations herein specified. Ice cream shall be of two sanitary grades: (1) grade A, manufactured from pasteurized milk and cream and containing not more than 100,000 bacteria per cubic centimeter, nor more than 20 organisms of the colon group per hundredth cubic centimeter, and (2) grade B, containing not more than 1,000,000 bacteria per cubic centimeter nor more than 100 organisms of the colon group per hundredth cubic centimeter. Conditions and methods pertaining to the manufacture, distribution and sale of ice cream shall comply with the requirements of the New Hampshire Sanitary Food Law and regulations adopted thereunder.

SECT. 7. Examinations. All bacteria counts shall be made by the methods of the American Public Health Association. In the case of milk, the accepted figure shall be the median count of a series of three samples taken at approximately the same time. If these samples disclose upon examination a higher bacterial content than is herein provided, notice shall be sent to the producer or distributor concerned and not less than five days thereafter a second series of samples may be taken. If the second series shows a higher bacterial content than herein provided notice shall again be sent, and not less than three days thereafter a third series of samples may be taken. It shall be considered an infraction of this ordinance should the second and third series of samples exceed in bacterial content the limits herein provided. In the case of cream and ice cream, if the examination of two successive samples shall disclose bacterial contents in excess of the specified limits, the dealer shall be notified, and the Board or its inspector may prohibit further

sales from this lot in case it deems the circumstances to so warrant; and if examination of a succeeding shipment or lot shall disclose bacteria in excess, the dealer shall be liable to prosecution.

SECT. 8. Licensing. The provisions of Chapter 164 of the Public Laws of New Hampshire relating to the licensing of vendors of milk, skimmed milk and cream are hereby adopted, to be in force in this city. Any license granted for the sale of milk or cream may be suspended by the Board of Health for such period as it may deem expedient. Such suspension shall be by written notice served upon the licensee and stating the reason or reasons, and shall be in effect forthwith. Said licensee may apply to the Board for a hearing, which shall be held thereon promptly.

SECT. 9. Equipment and Methods. The following conditions and methods relative to milk production and distribution shall be observed:

(a) All places where milk, cream, or ice cream are produced, manufactured, handled or sold shall be open to inspection by the Board of Health at all reasonable times.

(b) Stables and milk-rooms shall be constructed so as to provide adequate ventilation, lighting and drainage, shall be kept clean, and milk-rooms shall be screened from April 15 to November 1.

(c) The water supply shall be pure and ice shall be provided for cooling purposes.

(d) All containers used in the production and distribution of milk shall, before use, be thoroughly cleansed, using a cleaning preparation, and shall be sterilized with boiling water, live steam, or with the use or aid of such other agency as may be approved by the Board of Health.

(e) Milk and its containers shall not be exposed to flies, dust or other contaminative conditions.

(f) Manure shall be removed from the stable twice daily and be disposed of so as not to be a means of contamination of the milk.

(g) Cows shall be healthy and maintained in cleanly condition, and no milk shall be sold which is drawn from cows within fifteen days before or five days after parturition.

(h) Udders shall be cleaned before commencing milking.

(i) Milking shall be done with clean, dry hands into small-topped milking pails, or with a clean milking machine.

(j) All persons while engaged in milking or in handling milk shall wear clean, washable outer garments.

(k) Milk shall be removed from the stable to a milk-room immediately after milking, in the pails into which it was drawn, and shall be quickly cooled to 50 degrees Fahrenheit or lower and shall be maintained at such temperature during transportation and pending sale to the consumer.

(l) All rooms in which milk is cooled, strained, mixed, bottled or stored shall be kept clean at all times, shall be provided with self-closing screen doors, and shall not be used for sleeping purposes, for the storage

of any offensive matter, nor be frequented by cats, dogs or other animals. No water-closet or privy shall be in or in direct communication with such room. Adequate facilities shall be provided for washing and sterilizing utensils and containers.

(m) Surface coolers, unless located in a closed room used exclusively for cooling, or for pasteurizing and cooling, shall be protected during use by metal covers.

(n) Caps for bottles shall be purchased in sterilized containers and shall remain protected from contamination.

(o) Milk shall not be sold or delivered in other than tightly closed or capped bottles or receptacles which have been filled exclusively at the dairy or receiving station.

(p) Milk served at hotels, restaurants and lunch rooms in bottles shall be in the original capped containers as filled only at the dairy or pasteurizing plant.

(q) During transportation some method of covering approved by the Board of Health shall be employed. Covering in such manner as to tend to contaminate the mouths of containers is forbidden. No offensive or waste material shall be carried in any vehicle used for the transportation of milk.

SECT. 10. Workers Exposed to Disease. No person ill with or harboring the organisms of any communicable disease, or caring for or coming in contact with any person having such disease, shall be employed in the production, handling or sale of milk, cream, or ice cream. No person exposed to such disease, or in whose family such disease exists, shall be so employed except with the written consent of the Board of Health.

SECT. 11. Notification Concerning Diseases. Immediately upon the discovery of a case of tonsillitis, scarlet fever, diphtheria, typhoid fever, or of any other communicable disease, either in himself, his family, or in any employee or the family of such, every person engaged in the production, distribution or sale of milk, cream or ice cream for or in the City of Concord shall notify the Board of Health of this city. It shall also be the duty of any employee, so engaged, whenever such a disease may develop in his or her family, to notify the Board.

SECT. 12. Health Certificates for Pasteurization Plant Operators. The proprietor or manager of every pasteurization plant shall, at least annually, himself secure and shall require, before employment and at least annually thereafter, every employee handling milk or milk utensils also to secure from a physician approved by the Board of Health a certificate stating that the holder thereof is not afflicted with any communicable disease, and a copy of such certificate shall be filed with the Board of Health. Said Board is hereby empowered to require any persons engaged in the production, distribution or sale of milk, cream or ice cream to furnish similar certificates, in cases where it may consider the situation so warrants.

SECT. 13. Care of Receptacles in Case of Disease. No bottle, can or receptacle used for milk or cream distribution shall be removed from a private house, apartment or tenement wherein a person has a communicable disease until consent therefor has been obtained of the Board of Health.

SECT. 14. Power to Make Rules. In order to facilitate the enforcement of this ordinance, the Board of Health is hereby empowered to make such rules as may be necessary, consistent with the provisions herein contained.

SECT. 15. Penalty for Violations. Any persons, firm, company or corporation violating any of the provisions of this ordinance, or any rule lawfully made hereunder, or whoever hinders or obstructs any inspector in the pursuit of his lawful duty, shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine not exceeding ten dollars.

SECT. 16. This ordinance shall take effect October 1, 1925, except as to the provisions with regard to milk from tuberculin-tested animals, which shall take effect April 1, 1926. The provisions of Sections 19 to 24 inclusive of Chapter 13 of the city ordinances, relating to the sale and care of milk, are hereby repealed.

Passed May 11, 1925.

AN ORDINANCE PROVIDING FOR AUDITING OF ACCOUNTS OF THE COLLECTORS OF TAXES.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. That the Committee on Finance be given full power to act relative to the matter of auditing the accounts of collectors of taxes in said city for any year prior to 1925 and the committal of the uncollected taxes disclosed by such audit to the collector for the time being. That the collector for the time being shall have authority to receive payment for the redemption of property from sale for taxes by any collector for a prior year, provided such redemption payments are made within the period provided by law.

SECT. 2. That hereafter at the close of every annual term of office of each collector taxes, or upon a vacancy happening in such office, the uncollected taxes shall be committed for collection to the tax collector elected for the next succeeding period or for the balance of the term, also that said succeeding collector shall have the same rights as to distress, sale, deeding and redemption, and all other incidental powers, which were lodged in the collector to whom the taxes were originally committed.

SECT. 3. This ordinance shall take effect upon its passage.

Passed May 20, 1925.

AN ORDINANCE AMENDING THE STREET TRAFFIC REGULATIONS.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. Amend Article IV of the ordinance in amendment to the ordinance relating to the regulation of street traffic by adding thereto the following new section: "Sect. 13. In approaching the intersection of Warren Street, the driver of every vehicle bound north or south upon North State Street or Green Street, shall, before crossing said Warren Street, bring his vehicle to a full stop."

SECT. 2. All ordinances and parts of ordinances inconsistent herewith are hereby repealed, and this ordinance shall take effect August 1, 1925.

Passed July 13, 1925.

AN ORDINANCE IN AMENDMENT OF CHAPTER XIII OF THE REVISED ORDINANCES RELATING TO PUBLIC HEALTH.

Be it ordained by the Board of Aldermen of the City of Concord, as follows:

SECTION 1. Amend Section 11 of Chapter XIII of the Revised Ordinances by adding at the end thereof the following: No person or persons shall keep or permit to be kept any rooster upon any premises situated within the limits of the fire precinct as defined in Chapter XL of the Revised Ordinances; so that said Section 11 as amended shall read as follows: "Sect. 11. No person or persons shall keep or use any hog-pen, goat-pen, chicken-coop, or barn-yard so near to any highway, park, or other public place, as to be offensive or a menace to the public health, or adjoining or abutting any lot upon which any other person resides, if so near them as to be offensive, or in such manner that the contents of such hog-pen, goat-pen, chicken-coop, or barn-yard are discharged upon said lot or upon any street, lane or alley in the city. No person or persons shall keep or permit to be kept any rooster upon any premises situated within the limits of the fire precinct as defined in Chapter XL of the Revised Ordinances."

SECT. 2. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed, and this ordinance shall take effect thirty days after its passage.

MAYORS OF CITY OF CONCORD.

The original charter of the city was adopted by the inhabitants March 10, 1853, and until 1880 the Mayor was elected annually. Since 1880 the Mayor has been elected for two years at each biennial election in November. Under the City Charter, adopted May 11, 1909, the Mayor was elected in December, 1910, for one year, and biennially thereafter in November, beginning in the year 1911.

REPORT OF THE BOARD OF EDUCATION

To the Voters of Union School District:

Last year we called attention to the desirability of a new system of transportation for our pupils. In line with the expression of our views given at that time, the district entered into a contract with Dudley Brothers, of this city, for such transportation of our children as is necessary under the law, and so far as is desirable in addition thereto, by means of motor busses. The experiment, for such it was in large part, can now be fairly well appraised. Dudley Brothers, immediately upon entering into the contract, fitted up four attractive and proper busses to be used exclusively for the purpose of school transportation, to accommodate twenty-six and forty pupils, respectively. Five transportation routes were established by them and the superintendent, and the running of the busses placed upon regular schedules. The longest route extends to Loudon line, a distance of about seven miles. The number carried is about two hundred per school day. Up to the time of writing this report, there have been but five instances of children being delivered late to school since the beginning of the school year.

This method of transportation is a great convenience to both parents and children, as the time consumed in reaching school is hardly more than one-third of that used by our former method. The busses are more appropriate for all conditions of weather than the barges formerly used, and they lend themselves admirably to the careful supervision of pupils accorded by Dudley Brothers and their drivers. The present method has proven cheaper than the former, and altogether the change is greatly for the better.

For some time past, the method of physical training in the Senior High School has failed somewhat both in its efficiency and in its appeal to the student body. In October

of 1925, a committee was named by the board to investigate the desirability of a change, and if such change were to be made, to recommend a substitute therefor. Mr. Cook, Mr. Hartwell, Dr. Day, Mr. Walker, the assistant superintendent, Miss Anderson, dean of girls, and Mr. Callahan, physical director, composed the committee. Upon what seemed to us a painstaking examination and consideration of the matter, this committee recommended a system of daily physical exercises for fifteen minutes, to be taken in the middle of the forenoon in the various class rooms in the High School. These exercises are led by pupil directors, specially trained for the purpose, the girls being segregated in certain rooms and their work being carried on under the general supervision of Miss Anderson, the boys likewise being segregated and the general supervision of their work being under Mr. Callahan. Except as excused for proper cause, each pupil is required to take the drill. Very few excuses have been proffered thus far, and very largely the exercises are entered upon and executed with enthusiasm. The new system has been in effect only since the beginning of the second semester, but it seems that it has already proven its value over the former method.

There has been from time to time discussion as to the need of the Hall Street section of the city for school accommodations to be there provided for the younger children. For kindergartners and children of the first grades, the distance to the school buildings in the main part of the city is considerable, and is attended with no small degree of danger. The route from Hall Street to the school buildings as now provided leads across the street-car tracks and Water Street, which is the main thoroughfare from the city to the south, to the overhead bridge by the gas-house, and then across the street and the car-tracks by the Kelly drug store.

These considerations have resulted in delayed entry into school by a large proportion of the children from this section. The death of a young child by collision with an automobile last fall, not far below the overhead bridge mentioned above, naturally added to the reluctance of many parents to send

their younger children on what seemed a perilous journey. In fact, during recent weeks a small group of children, who normally would be in school, have, at their parents' expense, been gathered together in this locality for informal school-room instruction. We believe, therefore, that the children from this general section should be accommodated by a school building located where most convenient for the largest number, and we hope that the district will authorize the board in such a manner as may seem best to provide adequate schoolhouse facilities for the Hall Street section in its own neighborhood. It may be that for the present a portable school building will prove sufficient for the purpose. If, however, the section continues to increase in population as rapidly as in the immediate past, then a permanent school building of adequate size and proper construction must be provided.

At the last annual meeting, the district was informed that the residents of the south end of the city would soon ask for a new school building for the grade children of that section, and we understand that there seems to be quite a unanimity of opinion throughout the district that such new building is necessary. We do not believe, however, that the district is ready to act finally upon the matter at the forthcoming meeting, nor do we understand that the voters of the south end demand or expect such final action. Indeed, as one controlling consideration, it is certain that the amount of money now available is not enough to provide, in addition to the site, a building and the equipment for the same suitable and satisfactory to the district. We recommend, however, that the Board of Education be instructed by the district to investigate exhaustively the need of a new school building for the south end, and report the facts during the next year to the district, and in the meantime, if it should seem desirable to the board, to acquire an option for the purchase of a suitable building site. We recommend that a sum of money not greater than \$500 be raised and placed at the disposal of the board for the purpose of an option only.

Concord was the first school district in the state to engage

a dean for its High School girls. We understand that Laconia and Berlin have followed our example in this respect. Miss Katharine Anderson, of Brookline, Mass., a graduate of Ohio Wesleyan University was engaged for this new position in our system, and entered upon her duties at the beginning of the year. Through the energy and intelligence brought to her work, it has been demonstrated that the position is of great value to the district, and is proving to be a distinct success.

By act of the legislature, approved April 28, 1925, Union School District was authorized to grant pensions to teachers within the limitations prescribed by the act, itself. The granting of pensions is in the hands of the School Board, and must be from one or more of the following funds:

“(a) Money raised and appropriated for the purpose by vote of the district; (b) the proceeds of donations, gifts, bequests and devises made to the district, or in trust for the district, for the purpose; (c) the income of funds held in trust for the purpose by the district or by some other corporation or person; and (d) the contributions of teachers in the service of the district.”

Since the act was passed, a committee of the teachers and one from the Board of Education have worked over the making of a comprehensive pension program. The services of Mr. Edmund Cogswell of Boston, Mass., an actuary skilled in the matter of teachers' pensions, were engaged by this committee to assist in formulating such program. We are not sure that his work can be submitted to the joint committee early enough to become a basis of action at the annual school meeting, but the program will undoubtedly be announced as soon as it is completed. It will be noted that gifts and bequests may be made to the district for pension purposes; already one gift in the sum of \$1,000, as a memorial to Miss Luella Dickerman, has been made to the district. We hope this will serve as the first of a long list of such gifts to be made in the years to come.

In addition to their usual duties, the members of the School Board have acted for the past year as members of the

special building committee to erect and equip the new High School building upon a proper site selected by the building committee for the purpose. There have been about thirty regular meetings of this committee during the year, aside from a large number of subcommittee meetings in which members of the board have participated.

The plans and specifications of the new building are now being drawn up by the architects, and should very soon be in the hands of the contractors for final bids. Thereafter, the work of construction should very shortly begin.

In accordance with the vote of the district at the last annual meeting, Dr. Frank E. Spaulding, of Yale University, was engaged to make a survey of our school system. We have reason to believe that he has made such survey in a thorough, painstaking manner; as this report is being written, March 12, 1926, he has just finished his work of examination, preparatory to submitting his report. We regret that Dr. Spaulding's illness in the fall of 1925 so far delayed his final work of investigation that his findings and recommendations could not be completed and submitted to us for incorporation into the annual report. When presented to us, however, they will at once be made public in their entirety through the newspapers.

Two features of the athletic activities of the High School have recently received consideration by the Board of Education. An athletic council, to take charge of all High School sports, is in the making. Mr. Batchelder and Mr. Cook are formulating a scheme suitable for local conditions. The Athletic Council will have representatives from the Board of Education, the faculty of the High School and one or more citizens.

The long-standing question of an athletic field has again been brought into focus, by the formation of a committee of citizens to consider when, where, and how the project may best be put through. On this committee the Board of Education has one representative, Dr. Metcalf. There has been considerable sentiment in favor of building such an athletic field on the easterly portion of the jail site. In due

time, it is expected that the committee will recommend either this location or one near the new High School and will offer concrete suggestions about raising the necessary funds.

The School Board cannot close its report without reference to two most devoted servants of the district who died during the past year. Mr. Charles S. Conant had given all that was best of himself for 37 years to the musical training of our children and in so lavish and enthusiastic a manner as to win not only their hearty co-operation but their genuine respect and affection. His circle of friends reached beyond the borders of the state.

Miss Elizabeth S. Sargent was a teacher of great effectiveness for 18 years. In and out of school hours she gave to her scholars her fine personality. She was an example of all that is best in womanhood and an inspiration to all with whom she came in contact. Both Mr. Conant and Miss Sargent have left behind them a memory of unflinching faithfulness to duty which will be cherished by all who knew them.

REPORT OF THE SUPERINTENDENT.

To the Board of Education of Union School District:

I am submitting my fortieth annual report of the condition of the schools under your control, it being the sixty-eighth of its series.

I assure you that the schools are fully alive to the progressive educational spirit in evidence throughout the State and the Nation; that I am not averse to adopting modern ideas which have been proved to be effective; and that the system of public instruction now in force in this district is in keeping with the progressive tendencies of the times and has the power to produce the best educational results.

The State looks with favor on the school system in this city. Outside it is concerned with: more stringent requirements for the certification of teachers, strict attention to the so-called fundamentals in all grades of school, the better administration of school laws, the enlargement and better equipment of the normal schools, curbing the spread of low mentality caused by unwise marriages, and closer supervision of all the departments of public school work through additional supervisors sent out by the State Department.

National education is concerned now with many things, chief among which are: a general revision of school curricula, the shortening of the elementary course of study, the tenure of office for teachers, the better application of health education, research in secondary education, the extension of the Platoon System of conducting public schools, the formative forces in educational associations, and a national bureau of education.

Any school system that does not follow the trend of national educational thought is out of place and hopelessly in the rear. Here we have always had this in mind.

PUPIL ATTENDANCE.

I find that the enrollment is increasing slowly year by year. The congestion below Pleasant Street shows no

diminution, but with the occupancy of the new high school building enough rooms can be released in the Chandler, Rumford, Cogswell and Penacook schools to accommodate the southern part of the district for a number of years to come.

I believe that accommodations for the small children in the vicinity of Hall Street should be provided before the opening of the fall term of school. The attendance in all the rural schools seems to be well maintained and will probably grow in the future.

TRANSPORTATION.

The district now has good transportation facilities, a three-year contract having been entered into with the Dudley Brothers to serve on the four major routes.

BUILDINGS.

The upkeep of the buildings has been looked after with the usual care. All the rural schools were painted during the summer vacation. New floors were laid in the Riverhill School. The grounds of the Riverhill and the Mountain schools have been improved by the teachers and the pupils. Electric lights have been installed in the Cogswell and the Mountain schools. The electrification of the Kimball and the Eastman buildings should be done this year. By more or less ingenuity we have been able to keep the schools sufficiently heated and on this account have lost no time.

HIGH SCHOOL.

The high school continues to do about the same quality of work that has characterized it in years past, showing little change in the requirements and the methods used. The loss of Mr. Moors and Miss Sargent is not easily reparable. The long service of each was marked by real teaching strength and conscientious devotion to duty.

The school is gradually increasing in membership, the number having reached 614 students in the second semester.

Changes in the state requirements each year are being observed.

The many achievement and intelligence tests have revealed weak spots that need correction. This can be done only by hearty co-operation in applying them.

The traditional semester final tests still continue with the loss of valuable time and with unnecessary burden on both pupils and teachers. Since they count but one-fourth in promotion, their retention can hardly be defended. The modern idea of studying the individual student does not find its best exemplification in this school.

Mr. Cook's report shows that graduates of the high school entered post-secondary institutions during the year 1925 as follows:

Colleges,	40
Normal schools and the Dewey School,	14
Other institutions,	5
	—
Total,	59

Five teachers resigned during the year and their loss is severely felt.

He commends the work of the Dean of Girls and the change in physical drill. He recommends a new telephone system and the creation of new heads of departments.

A new department was begun this year in establishing the position of Dean of Girls. Miss Katharine L. Anderson has carried on the work to the distinct advantage of the school. Some of her duties may be summed up as follows: 212 different girls have been interviewed about school matters, personal problems, college training, future occupation, health, and various other subjects. Five girls have been found employment in homes or in caring for children. In twelve cases the co-operation of the parent has been sought. On the social side she has given much valuable co-operation with Girls' Club activities, and the Girls' Glee Club. I can offer no good reason why the boys of the school should not have such guidance and advice as the girls are now having.

JUNIOR HIGH SCHOOLS.

The organization of these schools remains unchanged. In Concord this accepted plan of organization has never had a fair trial, and no judgment passed upon it should be entertained until such trial has been granted, yet the work is superior as revealed by standard tests. When it is given a chance by being housed in one building its value will be doubled, and the cost of maintaining it materially reduced.

Junior High work of the past year has shown improvement. The teachers have readily co-operated in bringing about the "group" plan of instruction and prefer it to the antiquated semester final tests that have been given up.

The attendance in the Parker School shows little decrease. On the last day of the semester a Parents' Day was held, the exercises being conducted by the pupils in a creditable way. The scholars of this school have contributed to the *Volunteer* and have furnished one of the editors.

The schools are beginning to function in a social way and the coming year should bring the formation of worth-while club activities.

MECHANIC ARTS.

This school, its teachers, and its work need no extended comment by me. It could not be other than favorable. The effort has been directed toward improvement in teaching methods, morale, and professional spirit. During the year every teacher has completed one or more professional improvement projects.

I commend the results attained in printing, woodworking, bookbinding, electricity, machine shop work, forging, mechanical drawing and related subjects. Motor vehicle repair has been introduced and conducted with much success, but its field is now too limited. I recommend that additional space be acquired so that this work may be properly expanded. The principal recommends not only this but also that a new motor be installed in the pattern shop, and that the Board consider the installation of a

monotype machine. A sink is needed in the forge room and an automatic filing machine for use on all handsaws.

·DOMESTIC ARTS.

The work of this department has been the best that we have had for a number of years. It has shown momentum and a progressive atmosphere that should commend itself to every one.

I am enumerating some of the things done: the care of the Practice House has been conducted on the Cottage Plan by the classes from the junior and the senior high schools. The rooms of the third floor have been papered by the girls. During the fall months over 1,000 jars of food were preserved. Pupils of Class M conducted a muffin contest, which was won by the pupils of the Chandler School. All took part in the Radio Carnival at the Parker School on December 4, 1925, and the profits are being applied to the purchase of new equipment. A cookbook prepared by the girls, and printed at the Morrill School, will be for sale in the spring. In the State Round-Ups the following were prize winners:

Edith Masters, on "A Complete Outfit"—County First Prize—Martha Washington sewing cabinet; State Third Prize—camera.

Virginia Foote—kimono—Honorable Mention. Barbara Chapman—pillow slips—Honorable Mention. Two students have entered essays in the Royal Baking Powder Co. contest.

The following clubs have been formed: High School Girls—to prepare for the carnival. Dewey Training Girls—basketry. Home Nursing Girls—to become members of the Junior Red Cross.

Many Christmas gifts were sent to the Pembroke Sanatorium. Thirty homes have been visited by the teachers of the O, P, Q, R, classes.

A night school with a course of ten lessons in home-making was opened for adults on January 4, 1926. Thirteen women are registered. The classes are self-supporting.

The lunch rooms are in a flourishing condition and the menus are wholesome and satisfactory.

Needs of the school.—The enlargement of the kitchen of the Practice House. A new adjustment of courses: (a) a four-year home-making course; (b) a two-year vocational course. Sewing machines for the Garrison and H. P. Dame schools.

I commend the work of this school highly.

MEDICAL INSPECTION.

This department has been active in keeping its work in harmony with modern ideas. The amount of good it is doing for the schools is beyond measure. The increasing consumption of milk constantly reduces the percentage of under-nourished children which results in a corresponding raise in scholarship. I call to your careful reading the statistical report printed in another part of this pamphlet.

THE DEWEY TRAINING SCHOOL.

This school has changed little in the character of its work. Seventeen young women have been enrolled as student teachers during the year, eight of whom graduate next June.

The value of this normal training to the public schools of this city is fully justified by tangible results, and it ought never to be theorized out of existence.

PHYSICAL TRAINING.

The high school classes of boys and girls have been discontinued and a new system inaugurated, a detailed description of which may be found in Mr. Walker's report. Hygienic calisthenics have been carried on in the Rumford, Walker, Kimball, Chandler, Garrison and High schools. Music accompaniment has been used with good results in the Parker, Garrison, Kimball and Chandler schools. Junior High School leagues in baseball and hockey are in successful operation. Baseball by girls has been taken up by the girls of the Walker, Chandler, Garrison and High schools. The work of Mr. Callahan and Miss Anderson is of great value.

MUSIC.

The Music Department shows growing strength. Both the director, Mr. Barnes, and his assistant, Miss Johnson, have made steady progress in maintaining the standard of music in the schools, and their zeal joined to persistence, local pride and boundless energy, gives confidence of success. Musical organization is shown by the choruses at the Garrison, Walker, Chandler, Parker, and High schools; a brass band and an orchestra at the High School, and an orchestra at the Parker School as well as two glee clubs.

The Weaver System of teaching school music is being tried out with a view to adoption.

DRAWING.

After many trials drawing is assuming its proper place in our curriculum. The new supervisor, Miss Magoon, is carrying the elementary school work by frequent teachers, meetings for instruction and direction. The results are very apparent in the increasing excellence of the various correlations made with other subjects. The direct work of Miss Magoon is favorably shown in the Domestic Arts Department, in the junior high school, in the electives of the senior high, and in the training classes of the Dewey School. Some of the work done is summarized as follows:

Formation of an Art Club in the senior high school. They made posters for advertising sales at the afternoon tea at the Parker School. A field visit was made to the Rumford Press. A competition of designs for decorating the curtains of the Dean's office was held and won by Miriam Putney.

I recommend elective work for both boys and girls in the Parker School and also at the High School.

THE TEACHING STAFF.

The teachers are faithful and generally efficient. Many have kept up their professional obligations through attendance at summer schools and in extension work. The details

of this professional work can be found in Mr. Walker's appended report.

No figure is so pathetic in educational life as the teacher who is not keeping pace with modern worth-while educational ideas, preferring rather to turn aside anything that is not time-worn and to seek rest in the dying atmosphere of a useless past.

I call to your consideration the questionable value of such teachers.

OBITUARY.

Charles Sumner Conant, for thirty-seven years director of music in the schools of this district, passed from earth August 26, 1925. Mr. Conant was born of good old New England stock. Reared in Vermont, he absorbed much of the rugged common-sense characteristic of the Green Mountain region. Such characteristics were always in evidence throughout his service here, and they guided him faithfully in all his relations with Concord's schools and Concord's citizens. His remarkably long term of office, impressive though it may be, was second to the profound impression he made on the rising generation. It takes a rare combination of qualifications to raise one to the highest plane of efficiency. This combination Mr. Conant possessed in superlative measure. He will be remembered not only as eminently successful in his chosen profession but also as a man with sterling traits of character, firm in maintaining the right, tolerant with those who did not think as he did, thinking the best thoughts, and one who taught because he believed he was fulfilling an obligation to mankind.

Miss Elizabeth Sears Sargent, for eighteen years a teacher in our high school, passed into the larger life on January 18, 1926.

Miss Sargent was born in Hewett City, Conn., October 3, 1881. She was graduated from the Stevens High School in

Claremont, N. H., and in 1903 from Mt. Holyoke College. Supplementary to these she took advanced courses in Cornell and Columbia universities. She also traveled extensively in this country and in Europe. She was honored by the Examining Board for College Entrance Requirements in being selected to evaluate the test papers each year, in which capacity she served with distinction. Her entire life was one devoted measurably to enriching the existence of others. The schools and the civic life of Concord, equally, will mourn her loss.

Frank LeRoy Dudley, for twenty-two years janitor in our schools, died November 20, 1924.

Mr. Dudley was faithful and reliable in his work to the highest degree, being liked and respected by all with whom he came in contact.

George H. Greene, janitor of the Millville School, died on January 29, 1925, after having served the needs of his school for a year.

William D. Merrick, for twelve years janitor of the Eastman School, died February 21, 1926. His work was marked by faithful, conscientious application to his work.

THE COST OF EDUCATION.

The cost of public education may be valued from different viewpoints, but in the last analysis it must be determined by the amount and character of the education gained and the length of time taken in acquiring it.

The value is assailed in many systems by a flagrant loss of time caused by poorly constructed curricula, poor teaching, and not the least by not properly providing for the full occupation of school time by the pupils. This last

form of waste is probably more expensive than any other one thing.

The cost of public education can be partially determined by a comparison of values regarding the per capita cost of instruction. The report of the State Department of Education shows that Concord is near the top in this respect.

While this may be warranted by definite educational values, nevertheless, any advance in current costs should be carefully scrutinized before being incurred.

Every \$3,000 raised by taxation for current expenses means an increase of one dollar per capita. Any considerable number of thousands of dollars would raise the per capita cost so high that it could not be defended.

Comparison made between the expense of maintaining public schools and that of many of life's luxuries results distinctly in favor of education. Personal comfort generally has little sympathy for and offers no help in strengthening a public financial conscience so that all too few people attempt the sane regulation of public expenditures.

The cost of the erection of spacious buildings and their complete modern equipment cannot be questioned reasonably if it can be shown that educational value commensurate with the amount expended is a resultant. This may be truthfully applied to any other expenditure for schools, but the value should be definitely stated.

It is quite possible that the general public rely too much upon vast structures and excellent equipment as face value of public education. Nothing could be farther from the truth. The conditions of instruction within these structures will be the measure value of the money spent because the cost of teaching forms about two-thirds of current expenditures for public schools.

I am writing this not in the spirit of criticising the expenditure of public school money by those upon whose shoulders this burden falls but quite the contrary, because I think officials are careful in all such things.

I do, however, wish to call to the minds of the people

the general laxity and disinterestedness they display in the appropriation of public money and the readiness to vote it without intelligent questioning.

Again I am privileged to proclaim the unselfish devotion to improving the schools by the Board of Education, the efficient corps of teachers, and the Assistant Superintendent of Schools.

Respectfully submitted,

L. J. RUNDLETT,

Superintendent.

REPORT OF THE ASSISTANT SUPERINTENDENT

Mr. Louis J. Rundlett, Superintendent of Schools:

DEAR SIR: I am presenting a brief summary of several educational activities for the past year.

PROFESSIONAL IMPROVEMENT OF TEACHERS.

Concord teachers seek to improve themselves professionally by taking courses at summer school, by enrolling in extension courses and by preparing themselves to take examinations given by the State Department of Education.

Twenty-six teachers enrolled last summer at Harvard, Columbia, University of Vermont, Boston University, New York University, Clark University, Middlebury School of English, and Keene Normal School.

Sixty-eight teachers enrolled in the Harvard-Boston University Extension Course of fifteen lectures on "Educational Psychology," during the fall of 1924-25.

Forty-four teachers enrolled in the Harvard-Boston University Extension Course on "Methods of Teaching the Elementary School Subjects," during the fall and winter months of 1925-26.

Twenty teachers enrolled in study groups conducted for the express purpose of preparation for the state examinations given twice a year by the State Board of Education. Concord teachers stand high professionally, as judged by the number holding state certificates, licenses and permits. Certificates are the highest form of credentials given by the state; licenses and permits may be exchanged for certificates either by passing state examination or by exemplary service with sufficient evidence of professional growth.

Ninety-four Concord teachers hold the highest form of credentials from the state—the certificate.

Forty-one Concord teachers have licenses.

Four Concord teachers have permits.

EVENING SCHOOLS—ADULT INSTRUCTION.

Concord maintains three types of evening schools: a school for the purpose of teaching foreigners to speak, read and write English; a school of more advanced grade than the first; and a school in which branches of Domestic Arts are taught.

Twenty-eight different pupils were enrolled in the beginners' class.

Twenty-five different pupils were enrolled in the intermediate class.

Fourteen women were enrolled in the Domestic Arts evening classes held at the Practice House under the supervision of Miss Wallace.

Special attention, this winter, has been given in the classes conducted by Mrs. Putnam and Mrs. Kelley, to the problem of naturalization. Many of the men and women enrolled in these two classes were seeking to qualify for citizenship papers. The Concord Chamber of Commerce has actively co-operated in this enterprise.

TESTS AND MEASUREMENTS.

This office has continued its work started last year along the lines of standard tests and measurements. Emphasis has been placed upon the subjects of arithmetic, spelling, silent and oral reading, grammar and punctuation.

Results of the various tests have been placed in the hands of the teachers and pupils, and suggestions given whereby the instruction might become more effective.

The Concord schools are endeavoring to meet the educational needs of the boys and girls committed to their care by a conscious attempt on the part of the school authorities to recognize various differences in ability and accomplishments, which exist among children of the same grade, and even of the same age. Standardized tests both of general ability and achievement are among the many agencies which serve to keep this fact of individual differences—so often lost sight of in a system of mass instruction—constantly before our teachers.

During the past year, very intensive work in studying the individual child and attempting to adapt the instruction to meet his needs has been done in the Kimball, Garrison, Chandler, Parker, and H. P. Dame schools.

The Concord schools are endeavoring to make use in a sane way of the following general Ability Group tests:

1. Illinois General Ability Test, given to pupils at end of 4th grade.
2. The McCall Multi-Mental Scale, given to pupils at end of 6th grade.
3. The Terman Group Test of Mental Ability, given at the beginning of the freshman year.
4. The Brown University Psychological Test, given at the end of the senior year in high school.

The Concord schools attempt to discover the actual accomplishments and achievements of the individual pupils by means of certain standard tests.

1. The Illinois Achievement Test in reading and arithmetic, given at the end of the 4th grade.
2. The Thorndike-McCall Silent Reading Tests, given at least twice a year to all pupils in grades 3 to 9 inclusive.
3. The Stanford Achievement Test in reading, arithmetic, geography, history, language, science, and spelling, given at the end of the 7th grade.
4. The Woody-McCall Test in arithmetic fundamentals, given at least once a year from grades 3 through 9 inclusive.
5. Frequent spelling tests given throughout the grades.
6. Certain arithmetic and spelling tests given to senior high school pupils in co-operation with the State Board of Education.

Concord school teachers make use of the test results in many different ways, among which may be mentioned:

1. More attention to the subject in which the test indicates a weakness in the grade or school.

One school, the poorest in silent reading achievement of its pupils two years ago, is now one of the best in silent reading ability.

Another school revealed to be very low in spelling ability

a year ago has concentrated on this problem and is now one of the best in the district.

2. Several pupils have been given double promotion to classes in which their effort is more commensurate with their ability.

3. More drill has been given to pupils who need it in fundamentals, and less drill given to those pupils who do not need it.

4. The results of the tests are made use of by some teachers in the educational guidance of the pupil.

5. In grouping the pupils of the same ability and accomplishment together.

THE SCHOOL SURVEY.

The School Survey, authorized by the district at its last meeting, has demanded a large amount of time and work. Approximately seven-tenths of the entire time of the Assistant Superintendent and his clerk has been given to this project. Much valuable information and data have been collected, and placed on file in this office. Individual records of over 3,000 pupils have been compiled and studied. Several thousand test papers were corrected, and the results sent to teachers and pupils.

THE SENIOR HIGH SCHOOL.

The course in mathematics offered in the Senior High School has been strengthened by the introduction of mathematics in classes S and T. By this change, pupils may elect mathematics for four years instead of three as heretofore.

The method of conducting physical training has been changed. All pupils now receive physical training for 15 minutes each day during school time. The exercises are conducted by pupil leaders who have been particularly trained for the work by the supervisors.

SOME MAJOR IMPROVEMENTS.

Some changes which are worthy of favorable mention this year are:

1. The improvement in spelling and silent reading achievement in the whole school system.
2. The closer linking of the Parker School with the Senior High School, particularly in the departments of mathematics and French.
3. The adoption in several schools of a more extended plan of individual instruction.
4. The extension of extra curricula activities in the Senior High School.

Respectfully submitted,

CHARLES W. WALKER,

Assistant Superintendent of Schools.

RECORD OF ANNUAL MEETING, 1925.

In accordance with the foregoing warrant a meeting of the legal voters of Union School District was held at the City Auditorium in Concord, N. H., on Thursday, March 26, 1925, at 7.30 p.m.

The moderator called the meeting to order and read the warrant.

ARTICLE 1. On motion of Edward C. Niles, duly seconded, the clerk was instructed to cast one ballot for Arthur P. Morrill as moderator of the district for the ensuing year, and he was declared unanimously elected and took the oath prescribed by law before Ray E. Burkett, Justice of the Peace.

ARTICLE 2. On motion of Earl F. Newton, duly seconded, the moderator was instructed to cast one ballot for Ray E. Burkett for clerk of the district for the ensuing year, and he was declared unanimously elected and took the oath prescribed by law before the moderator.

ARTICLE 3. On motion of Alpheus M. Johnson, it was

Voted: That the report of the Board of Education, having been printed in the annual school report, the reading of the same be dispensed with, and the report as printed be accepted and placed on file.

ARTICLE 4. On motion of Albert S. Baker, it was unanimously

Voted: That the meeting proceed to ballot for three members of the Board of Education to serve for three years, and that the moderator appoint three tellers to sort and count the ballots.

The moderator appointed as tellers, Edward C. Niles, Esq., Mr. Leander Parkhurst, and Mrs. Harold H. Blake.

On motion of Harry C. Brunel, it was

Voted: That the polls be kept open for the reception of ballots until 8.30 o'clock.

At 8.30 o'clock the moderator declared the polls closed and announced the result of the ballot as follows:

Total number of ballots cast,		330

and Merton C. Knapp, Harry F. Lake, and Dorothy B. Jackson were declared duly elected members of the Board of Education for a term of three years.

ARTICLE 5. On motion of Rev. W. Stanley Emery, duly seconded, it was

Voted: That the clerk be instructed to cast one ballot for Clyde M. Davis and William C. Brunel as auditors of the district for the ensuing year, and they were declared duly elected to such office.

ARTICLE 6. On motion of Joseph S. Otis, duly seconded, it was

Voted: That there shall be raised and is hereby ordered to be raised by tax on the polls and ratable estates within Union School District, Supervisory Union No. 8, the sum of twenty-three thousand two hundred ten and no/100 dollars (\$23,210), of which sum seventeen thousand dollars (\$17,000) shall be appropriated for the payment of the bonds maturing May 1, 1925, July 1, 1925, and October 1, 1925, and six thousand two hundred ten dollars (\$6,210) for the payment of the interest on its bonded debt accruing during the year.

ARTICLE 7. On motion of Carl H. Foster, duly seconded, it was

Voted: That there shall be raised and is hereby ordered to be raised by tax on the ratable estates and polls within Union School District,

Supervisory Union No. 8, and appropriated for the support and the general administration of the public schools for the ensuing year, such a sum as, in addition to the amount required by law, will amount to the sum of two hundred seventy-six thousand six hundred thirty-one and 66/100 dollars (\$276,631.66).

ARTICLE 8. On motion of Burns P. Hodgman, duly seconded, it was, after discussion,

Voted: That the district acquire land for a high school building and erect, originally equip and furnish the said building, and for such purpose the sum of \$550,000 is hereby appropriated, and to provide for the same appropriation the Board of Education of the district is hereby authorized and directed pursuant to an act of the New Hampshire legislature approved the 26th day of February, 1925, to enter into an agreement with the city of Concord that the city borrow on the credit of the city for the purpose of acquiring land for a high school building and the erection and original equipment and furnishing of the said building in Union School District the sum of \$550,000, and to issue bonds of the city therefor payable \$15,000 thereof two years from the date of the said bonds, and \$15,000 thereof annually thereafter for three years, and \$14,000 thereof annually thereafter for 35 years, and bearing interest at the rate not to exceed 4½ per cent per annum, payable semi-annually, and there is hereby appointed Willis H. Flint, Mrs. Charles P. Bancroft, Joseph T. Walker, John S. B. Davie, and Omar S. Swenson and the Board of Education of Union School District as a committee to be known as the Joint High School Building Committee, and the said Joint Committee shall have power to select the site, and to erect, originally equip and furnish the said high school building.

ARTICLE 9. On motion of Bennett Batchelder it was voted not to consider or take action on Article 9 of the warrant.

ARTICLE 10. On motion of Dr. C. R. Metcalf, duly seconded, it was

Voted: That the President of Dartmouth College, the principal of Phillips Exeter Academy and the Rector of St. Paul's School be requested to select, jointly, a competent person or competent persons who shall make a thorough survey of the course of study of the Union School District and of the time devoted thereto; and who shall thereafter report to the Board of Education of Union School District any modifications which, in his opinion or in their opinions, would be for the best interest of the pupils of the district.

If a member of the above named committee of three is unable to serve, the remaining members or member shall choose a substitute or substitutes to complete the committee.

Mrs. Evelyn A. Knapp announced that the taxpayers of the south end of the city will request the School Board to insert in the warrant in

the next annual meeting an article under which action may be taken relating to the erection of a new grammar school, to be erected at some location south of Pleasant Street.

On Motion of Harry F. Lake, Esq., the meeting adjourned.

REPORT OF THE BOARD OF WATER COMMISSIONERS.

CONCORD, N. H., March 1, 1926.

To the Mayor and Board of Aldermen of the City of Concord:

We hereby submit the annual report of the superintendent of the Water Works for the year ending December 31, 1925.

The superintendent's report contains complete information of the condition of the water works for the year 1925.

The board has voted to replace during the present season the remaining portion of the cement pipe line in the city proper with cast-iron pipe. The surplus now on hand with the net receipts covering the present year will be more than sufficient to make this improvement.

Respectfully submitted,

EXTENSIONS AND IMPROVEMENTS.

Distribution pipes laid in 1925:

14-inch:

Penacook Road, at Willow Hollow, 756 feet, replacing 14-inch cement-lined.

8-inch:

Odd Fellows Avenue, high service line, north from Pleasant Street, 144 feet.

6-inch:

Auburn Street, north from Columbus Avenue, 508 feet; 38 feet of 2-inch discontinued.

Wood Avenue, extended west, 606 feet.

Broad Avenue, extended west, 262 feet.

Badger Street, from Allison to Harrison Street, 308 feet; 94 feet of 4-inch discontinued.

Water Street, extended north 320 feet.

Hopkinton Road, extended south, 144 feet.

Ridge Road, extended north, 116 feet.

Engel Street, West Concord, from Fisher to River Street, 312 feet.

River Street, West Concord, extended north, 182 feet.

Roger Avenue, West Concord, east from No. State Street, 218 feet.

Sylvester Street, east from Penacook Road, 258 feet.

Snow Street, east from Penacook Road, 53 feet.

Cross Street, Penacook, south from Spring Street, 461 feet; 420 feet of 1-inch discontinued.

Penacook Road, under cement road, laid for future use, not connected.

For Borough Road East, 25 feet.

For Abbott Road, 25 feet.

For Hobart Street, 25 feet.

4-inch:

Pierce Street, from Thorndike to Laurel Street, 246 feet.

Rollins Street, extended north to Washington Street, 125 feet.

1-inch: 408 feet.

On hydrant branches: 18 feet of 8-inch and 92 feet of 6-inch pipe.

On blow-off: 14 feet of 6-inch pipe.

Total length of main and distribution pipes now in use, 396,709 feet, or 75.13 miles.

Seventeen gates were added during the year; total number now in use, 1,110.

Six new hydrants have been set as follows:

Auburn Street, north of Columbus Avenue.

Badger Street, west side opposite Harrison Street.

Wood Avenue, at No. 26.

River Street, West Concord, southwest corner of Engel Street.

Snow Street, at south corner of Penacook Road.

Cross Street, Penacook, east side at end of street.

Total number of hydrants now in use, 488; private, 96.

Seventy-four services have been laid consisting of 1,610 feet of $\frac{3}{4}$ -inch, 71 feet of 1-inch and 28 feet of $1\frac{1}{4}$ -inch pipe.

Twenty-five services were discontinued of which nineteen were replaced by new ones and six discontinued permanently.

Total number now in use, 4,160; length of service pipes, 98,955 feet, or 18.75 miles. Three services have been shut off during the year for non-payment of water bill.

One 6-inch high service connection for sprinkler service was made for Reed Laundry Co. and one 6-inch fire service for C. M. & A. W. Rolfe.

One hundred and eight services have been relaid and curb valves placed on 58 old services.

Ninety-seven new meters have been set and 7 have been removed; total now in use, 3,027.

All buildings of the Water Works are in good condition and need no extensive repairs. The storehouse which is used jointly by the Water Works and city should be painted this coming season.

During the past ten years, the department has gradually changed from horses to automobiles; this change has made

necessary more room for the automobiles, and this has been accomplished by alterations at the shop which now give an excellent garage. A steam heating system has been installed which will keep the temperature of the garage up to 65° F. and also furnish heat for the shop.

At the pumping station in accordance with your instructions, an additional electric pumping unit has been installed of the same capacity and type as the first machine, complete with switchboard.

The pump was manufactured by the DeLaval Steam Turbine Co. of Trenton, N. J., and is a single stage centrifugal pump with a capacity of 3,600,000 gallons per 24 hours at a dynamic head of 115.2 feet. A General Electric 100 H. P. motor furnishes power to run the pump. The pump when placed in service October 1, 1925, fulfilled all conditions of the guaranty. It is now being run alternately with the No. 1 centrifugal electric pump.

The steam pumps have been run once during the year when the reservoir was cleaned, and their performance at that time showed that they were in good condition and ready for any emergency.

During the past season the state built a section of reinforced concrete road on the highway to Penacook; for the greater part of the way the 14-inch cement-lined main that supplies Penacook was entirely outside this new construction; certain changes, however, brought a section of 756 feet directly under the new road, and your instructions to replace this with 14-inch cast-iron pipe have been carried out. The condition of the wrought-iron cement-lined main laid in 1887 wherever uncovered was found to be good.

In explanation of one item in our receipts, I would say that we laid a cast-iron pipe for the State Highway Department in the changing of the Daniel Webster Highway at Valley of Industry, Boscawen, all expense of which was reimbursed.

The hydrants have been inspected and painted; the color has been changed from black to yellow. This was done not because yellow was thought to be more ornamental, but to

make the hydrants more conspicuous, especially at night. Notwithstanding this added precaution, we have had several hydrants broken by automobiles, but in no case was any damage done by water.

The supply of water at Penacook Lake continues ample for the needs of the city. The highest level of water in the lake was reached May 1, elevation 183.95, or .8 foot below overflow; the lowest point was November 28, elevation 179.60, a drop of 4.35 feet. The level at which the water enters the intake is at elevation 169.55.

The lowest point reached previous to this year for a number of years was March 1, 1914, when the height was at elevation 176.20, or 3.40 feet below the present level. Previous to that a level of elevation 175.50 was reached October 17, 1911.

The average daily consumption of water for the total use of the city by Venturi meter measurement is 2,400,000 gallons per day. The daily average amount of water pumped for high service is 930,000 gallons; on this basis the city is supplied 60 per cent by gravity and 40 per cent by pumping.

The quality of the water continues good; it is neither filtered nor chlorinated. The shores have been cleaned thoroughly and all brush trimmed back for a distance of 12 feet, and we now own about 98 per cent of the entire shore line.

The rules in regard to boating have been strictly enforced, and a willingness is noted on the part of boat owners to cooperate cheerfully in keeping the rules.

In conclusion I wish to thank the members of the Water Board for their continued support and confidence during the year.

Respectfully submitted,

P. R. SANDERS,
Superintendent.

REPORT OF ENGINEER AT PUMPING STATION.

PUMPING STATION, CONCORD WATER WORKS.

P. R. Sanders, Superintendent:

SIR: I would report that the pumping machinery at the pumping station, including boilers, is in good working condition.

Both steam pumps have been turned over every two weeks by high service pressure to see that they were in good working order.

FIRE DEPARTMENT.

REPORT OF THE CHIEF ENGINEER.

To the Board of Aldermen:

In accordance with the requirements of the city ordinance, I herewith submit for your consideration the report of the Fire Department for the year 1925.

The department responded to 46 bell alarms and 319 still alarms.

ALARMS.

	Bell.	Still.	Total.
Precinct,	19	227	246
Penacook,	9	75	84
East Concord,	15	3	18
West Concord,	3	14	17
	—	—	—
	46	319	365

This report will be found to contain statements in detail embracing the amount of expenditures, and a complete roll of the department with residence and occupation of each member.

While the number of alarms responded to did not equal the total of the previous year, the loss was slightly larger.

Three fires account for \$85,444 of the aggregate loss, namely, January 18, Concord Furniture Co., \$39,110; May 22, Rolfe factory, Penacook, \$27,334; and the N. E. Baking Co., Plains, October 24, \$19,000.

The apparatus is in good condition.

The forward tires on four combination cars were renewed, and four unsatisfactory siren horns gave way to new and more powerful ones.

The steam fire engines were overhauled, tested and placed in first-class condition.

One stall was added to the annex garage.

All needed repairs on the precinct and Penacook fire alarm systems were attended to. The precinct battery was renewed with cells and elements of the latest type.

Eighteen hundred feet of hose was purchased, but as a considerable amount was condemned at the annual test and turned over to the other departments and some lost at fires, the complement diminished, rather than increased during the year.

I respectfully recommend the purchase of two thousand feet of hose during the coming year.

During the month of September I was privileged to attend the convention of the International Association of Fire Engineers held at Louisville, Ky., a report of which I rendered at that time.

I wish again to thank your honorable body for the opportunity afforded me to learn.

Respectfully submitted,

W. C. GREEN,
Chief Engineer.

RECOMMENDATIONS.

Our Packard ambulance has been in operation since 1917. The body was built in 1914 and was placed on a Velie chassis. In 1917 a secondhand Packard touring car was purchased for the sum of \$1500 and the old body placed upon it. From the best information I have been able to obtain, the car had been run twenty-five to thirty thousand miles at the time it was purchased. I respectfully recommend that the Committee on Police examine the ambulance for the purpose of finding whether it is a safe proposition to operate it another year. Personally I am of the opinion that the ambulance is practically worn out, and I recommend the purchase of a new one.

CONCLUSION.

In conclusion I wish to thank His Honor the Mayor and the Honorable Board of Aldermen for all courtesies shown this department during the year. I also extend to the Honorable Police Committee my appreciation for the keen interest taken by them for the betterment of the department.

To Judge William L. Stevens, County Solicitor Herbert W. Rainie, Clerk of Court John W. Stanley, I extend my thanks for their co-operation.

Respectfully submitted,

GEORGE A. S. KIMBALL,

Chief of Police.

The work of construction and maintenance of the sewers are handled by this department for the Board of Public Works.

This department has done whatever work was asked of it by the several departments, committees and city government.

Your engineer has attended building hearings and accompanied the city government on their hearings, as well as attended all meetings of the city government and Board of Public Works.

All sewer connections were inspected and recorded.

Grade stakes were set for 9,628 feet of sidewalks.

Sidewalk grades were established for 3,761 feet.

Plans and blue prints were made when requested. The assessors' maps were kept up to date. There were 724 transfers of property during the year.

Total mileage in outlying portion of the city, 127.480.

STREETS DISCONTINUED.

Gladstone Avenue, Ward 3, North Street, north 891.90 feet, or 0.168+ miles.

The records in this department are kept on a card system which gives in detail the expenditures and entire work of the year, which we will be pleased to show anyone who is interested.

We have handled practically every phase of municipal engineering for citizens, and out-of-town people, as well as the city's work, all of which has been cheerfully done by the employees of this department, who are: Mr. Edward E. Beane, assistant engineer; Joseph Clement, a government student, and C. Fred Moulton, rodman; Miss Frances Ashley, clerk, all of whom have rendered valuable service to the city.

I have attended the meetings of the city government, hearings, and also committee meetings, when requested by said committees.

I deeply appreciate your courtesy in allowing me to attend the meetings of the American Society for Municipal Improvements held at Des Moines, Iowa, in October.

For the support and co-operation of your board, the heads of departments, and the citizens of the city, I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG,

City Engineer.

REPORT OF THE BOARD OF HYDRANT COMMISSIONERS.

CONCORD, N. H., December 31, 1925.

To the Board of Mayor and Aldermen:

GENTLEMEN: The twentieth annual report of this board, for the year 1925, is herewith submitted.

On June 9, 1925, Commissioners Sanders and Lang met on Badger Street, and recommended the installation of a three-way Corey hydrant on the property line between houses number 14 and 16 on the west side of said street.

On September 27, 1925, Commissioners Sanders and Lang met on South Main Street, opposite the Jenney Gas Filling Station, and recommended that the present hydrant be relocated thirty feet south of the southerly side line of Turner's Lane on the east side of South Main Street.

No other sessions were held during the year.

Respectfully submitted,

FRED W. LANG,

P. R. SANDERS,

W. C. GREEN,

Board of Hydrant Commissioners.

REPORT OF THE BOARD OF EXAMINERS OF PLUMBERS.

CONCORD, N. H., December 31, 1925.

To the Board of Mayor and Aldermen:

GENTLEMEN: The twenty-sixth annual report of this board is herewith submitted.

The membership of the present board is as follows: Arthur W. Brown, an examined journeyman plumber; Charles H. Cook, M.D., and Fred W. Lang, city engineer. Mr. Brown is chairman of the board, and Fred W. Lang, clerk.

Three applications for journeyman's license, and one for a master's license were received.

Four meetings of the board were held, all of the applicants were examined and one passed the required examination. Three failed to pass.

There are four classes of plumbers on the register: registered master, examined master, registered journeyman, and examined journeyman.

The following paid for their 1925 license and are classified as follows:

REPORT OF THE PLUMBING INSPECTOR.

CONCORD, N. H., December 31, 1925.

To the Board of Mayor and Aldermen:

GENTLEMEN: On February 6, 1925, the inspection of plumbing was placed under the supervision of the city engineer.

There have been 156 permits issued for new work.

There were 312 inspections made.

There have been several complaints on repair work, these were adjusted satisfactorily to all concerned.

There are several changes in the plumbing laws that I would recommend. The major ones being: All traps over six feet from stack (instead of four as at present) shall be back-vented. All 4-inch iron pipe used on plumbing work shall be extra heavy.

I find that the plumbers of Concord are a high type of men and are skilled workmen, and it has been a pleasure to work with them.

Respectfully submitted,

FRED W. LANG,

Plumbing Inspector.

REPORT OF THE SEWER DEPARTMENT.

CONCORD, N. H., December 31, 1925.

To the Board of Public Works:

GENTLEMEN: The fifteenth annual report to your board, showing work done under the supervision of the Engineering Department, for your board, for the fiscal year ending December 31, 1925, is herewith submitted.

In this report I shall make no recommendations, believing it to be more appropriate to make them to your board at your regular sessions, when the opportunity is always open.

An itemized account of transactions of the sewer department is kept in the office of the city engineer, and information as to the same can be had by interested parties at that office.

On May 19, 1925, the Ford truck was placed in commission, and the department is now equipped with up-to-date equipment.

Sewer pipe was purchased of Wm. S. Simpson, Inc., through their agent, A. H. Britton & Co., at 65 per cent off of list under contract for year.

Cement was purchased of Concord Lumber Co., under contract. A small amount was purchased of J. E. Normandeau and Sons at a time when Concord Lumber Co. was out of cement.

Lumber was purchased of Concord Lumber Co. and Boutwell, Upton and Boutwell.

Supplies were purchased locally when possible.

Monthly statements of coal tar walk were given to the departments or committees having the work done.

In company with one or both of the three members of the committee on location of poles, I have attended to the duty, attended hearings and meetings of your board and furnished such information as was called for.

The work of this department has been carried on with a force of five men and, owing to their loyalty to the department and untiring efforts to do the work in an efficient and economical manner, I am able to report a vast amount of work done at costs as heretofore given in this report.

I wish to thank the citizens, and heads of departments, for the courtesies extended me and the employees of this department.

For the many courtesies extended to me by your board, I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG,

City Engineer.

REPORT OF THE BOARD OF PUBLIC WORKS.

REPORT OF THE HIGHWAY DEPARTMENT.

To the Board of Public Works:

The following is submitted as my annual report of the work of the Highway Department for the year ending December 31, 1925.

The work of this department embraces the construction and maintenance of streets, the care of trees, the collection of garbage, the sprinkling of streets and the construction of sidewalks and bridges.

In the superintendent's office file, a complete record of all purchases, expenditures and detailed costs is maintained for ready reference.

FINANCE.

Funds for the work have been received as last year from two sources; all permanent work on streets, sidewalks and bridges was financed by bond issue; maintenance of streets, the care of trees, collection of garbage, and sprinkling of streets were paid from the yearly budget.

CONSTRUCTION.

The asphalt plant purchased last year has been repaired, placed on concrete foundations and a temporary roof placed over it.

Old crusher bins were torn down and new foundations and bins erected.

Hart and Turkey River bridges were constructed with reinforced concrete, and several tile pipes and wooden box culverts were replaced with corrugated iron culvert pipe.

School and Center streets between Green and North Spring were resurfaced with a bituminous top and concrete curb and gutter. Durgin Lane was resurfaced with a bituminous top.

Concrete surface was laid on Gulley Hill as well as on the trunk line from Bog Road to Hoyt's Garage, the latter being built by contract, the state paying one-half of the cost.

The sum of \$19,037.87 has been expended on sidewalks in the several parts of the city.

A central heating plant at the garage and stables was started.

MAINTENANCE.

Bridges. The Concord-Pembroke bridge was repaired jointly with the town of Pembroke. The floor system of the river bridge on Bridge Street was started, but could not be completed on account of non-arrival of lumber. We have painted six of the steel bridges in the past year.

Bituminous Surface. The approach to the Rumford Press was surfaced with asphalt penetration, the Press paying the total cost; 23.6 miles of streets were resurfaced by the gravel and tar treatment; 5.1 miles of gravel road were treated with oil and 9.03 miles of tar surface were given an application of asphalt.

Garage and Stables. Two Concord trucks, three International trucks, four Ford tractors, seven Stark plows, six New England plows, three Ford trucks, two road machines, one Mead-Morrison tractor, one Walsh plow, and one Buick coupe have been added to our equipment.

Patching. The road machine has been run, and gravel and bituminous surface has been patched during the year.

Snow Removal. Snow was removed by plowing to the sides of the streets with trucks and tractors equipped with plows; in the business section it was loaded on trucks and teams, and hauled away. Sidewalk plows were run as usual.

Sprinkling. Motor-driven flusher has replaced the old method of flushing our streets with fire hose. Water and calcium chloride were used on some of our streets and country roads.

A street sweeper attached to one of our tractors has replaced the horse-drawn one.

Garbage. Collections of ashes and rubbish were made as usual two times each week in the business section, and every two weeks in the residential districts.

Table garbage, placed in this department the first of the year, is collected once each week over stated routes.

The collection of ashes was started in October in West Concord.

Trees. Trees were sprayed and trimmed. Seventeen dead maples and twenty elms, and fifty poplars were cut down during the year, and fifty elms and fifty maples were set out to replace them.

A new sprayer was added to our equipment.

Conclusion. I wish to thank Mayor Flint and members of the Board for their interest and assistance during the year.

Respectfully submitted,

ORRIN W. HEAD,

Superintendent of Streets.

REPORT OF THE BUILDING INSPECTOR.

CONCORD, N. H., December 31, 1925.

To the Board of Mayor and Aldermen:

GENTLEMEN: The second annual report of your building inspector is herewith submitted:

PERMITS ISSUED AND BUILDINGS COMPLETED.

- 10 one-car garages.
- 8 two-car garages.
- 5 three-car garages.
- 4 four-car garages.
- 2 filling stations.
- 2 henhouses.
- 15 dwellings remodeled.
- 4 dwellings built.
- 1 store and dwelling combined.
- 3 stores.
- 3 stores remodeled.
- 6 public garages.
- 1 hall and lodge room combined.
- 1 block rebuilt.
- 20 buildings were remodeled, no permit required.

Permits were issued for two two-car and one four-car garages, owners decided not to build.

PERMITS ISSUED BUILDING NOT COMPLETED.

- 1 acetylene generation plant.
- 4 one-car garages.
- 5 two-car garages.
- 3 three-car garages.
- 2 four-car garages.
- 3 dwellings remodeled.
- 1 roof changed.
- 1 bank.
- 1 bank remodeled.
- 1 theater and lodge room combined.

There have been several complaints as to the use of wooden shingles in the fire limits. Each case was investigated, and in all cases but one the property owners had procured the shingles, prior to the passage of the Building Code. In the one case, shingles were bought just before they were laid. These shingles were taken off the roof and replaced with fire-resisting shingles.

The inspections have taken a great amount of time, and I feel that the code has been lived up to cheerfully by the contractors, with the exception of a few cases, where it looked like a clear case of ignoring the provisions of the code, but after considerable argument they made the necessary changes that the inspector required.

SIGNS.

There have been 25 sign petitions referred to the building inspector. These signs have been erected in compliance with the city ordinances.

During the year 231 signs were inspected. Location and condition is kept on a card system in the office of the city engineer.

Signs that were defective at the time of inspection were made secure and owners notified of conditions found.

The building inspector asked for an appropriation of fifty dollars for cost of inspections, and it was expended as follows:

Paid Prescott Sign Co., service and truck,	\$22.50
Labor as per payroll,	24.00

Total expenditures,	\$46.50
---------------------	---------

The contractors and men have been very courteous, and I am sure good results have been obtained.

For the courtesy extended me by your board, the contractors and citizens, I wish to express my appreciation.

Respectfully submitted,

FRED W. LANG,

Building Inspector.

PUBLIC LIBRARY.

REPORT OF THE TRUSTEES.

*To the Mayor and Board of Aldermen of the City of Concord,
New Hampshire:*

The trustees of the Public Library herewith transmit the annual report of the librarian, which contains a brief outline of the work of the year and calls attention to some improvements necessary for satisfactory library service.

The citizens of Concord have been most fortunate in the long and efficient services rendered by the librarian and her assistants.

A committee of the Board of Trustees has made an exhaustive study of public library facilities in Concord and finds that there has been a steady increase in the number of available books, much larger than the increase in the number of readers or population of the city.

Concord is exceptionally fortunate in having centrally located within its limits the State and Historical Society Libraries, which, though they have a state-wide field, are available for large use by local readers—several times the use that is made of them at present. These libraries are largely supplementary, and care is taken in the City Library to avoid duplicating books there found, save where numerous copies are necessary in order properly to serve the public.

Some percentage increases for Concord during the quarter century 1900–1925 are as follows: population, 22; books in City Library, 55; books in the three libraries, 151; tax valuation, 153; appropriation for library, 40; appropriation plus income from trust funds for library, 126.

On January 1, 1926, the numbers of books in the three libraries were as follows: City, 36,383; Historical Society, 38,702; State, 176,276. There are also large numbers of unbound volumes.

The Fowler Library Building was opened for use in November, 1888, with about 14,000 bound volumes. The stackroom was planned for 23,000 volumes. The trustees stated, in their report for 1902, that more room was needed. Rooms and shelves were provided in the basement, and shelves have been placed along the walls of the stackrooms and all other available walls, so that the limit is reached for the present structure.

The two outstanding needs, as suggested in the report of the librarian, are a suitable room for children and more and better stackroom accommodations. The live books we now have should be more accessible, and provision should be made for at least 1,000 new books each year.

It is believed that conditions may be made fairly satisfactory for a generation or so, by a suitable addition to the east side of the present building and at a moderate cost so that it will not seriously interfere with the construction of a building on a much larger scale when sufficient funds shall become available. Ample land is now available, and a serious study is being made of the present conditions and needs for the near future, and it is hoped that a satisfactory solution of the problem may soon be brought about.

The appropriation for the year 1926 should not be less than for the last six years, namely \$7,000 plus the income from the library trust funds and bequests.

Respectfully submitted,

THOMAS W. D. WORTHEN,

President of the Board of Trustees.

REPORT OF THE CITY LIBRARIAN FOR 1925.

To the Board of Trustees of the Concord Public Library:

GENTLEMEN: The old saying which ascribes greatest happiness where there is least history, while it may be true of nations and women (mentioned in the proverb), is scarcely true of a public library. If we could report new chapters of experience, new opportunities of service, we should feel better pleased than we are to report merely a year of average well-being, attested by the following statistics:

EXPENDITURES.

Salaries and labor,	\$5,776.84
Books and periodicals,	1,614.32
Binding,	442.55
Printing,	50.35
Fuel and light,	858.72
Incidentals,	431.79
	<hr/>
Total,	\$9,174.57

Though there is a widespread and well-grounded realization of the increased cost of things, it is rather interesting to hear specifically how prices have advanced; for instance, binding costs per volume more than double what it did when I came into the library, thirty years ago—twenty-three cents then, fifty-five cents now. The \$1.50 novel of that day is at present frequently \$2.50; and coal has almost trebled, rising from under \$6 to over \$16 a ton; and there has been an increase in salaries. Everything conspires to swell the library's outlay; but as our part of the City Budget in 1925 was fully \$11,000, we have as usual kept well within our funds.

	Volumes.
At the beginning of 1925 we had in the library,	35,768
There have been added by purchase,	924

There have been added by gift,	37
binding magazines,	39
discarded,	385
	<hr/>
Now in the library,	36,383

The number of new borrowers has been 704, of which those of school age were 380. Concord stays pretty much the same; and our count of added customers remains annually between 700 and 800; whereas a rapid increase in our city census would send up our figures noticeably.

The circulation of books increased very little, being 74,382 as against 74,206 in 1924. Fiction leads with a per cent that always appals, seventy-seven. More periodicals were given out than works of biography and history combined, the former running to seven per cent, the latter to five. Sociology and literature register two and four per cent respectively; the other classes,—and the library being catalogued by the Dewey system, these are Philosophy, Religion, Philology, Natural Science, Useful Arts and Fine Arts,—together make up the remaining five per cent.

It is along non-fiction lines that we are holding our own. Subscription libraries, conveniently located on Main Street, suffice for many of the novel-readers. We have observed that young people in their teens do not flock in as they did twenty-five years ago for pleasure books; they are busy with required school reading and with the numerous clubs and functions which now complicate school life. Smaller boys, growing up on the movies, are avid for Zane Grey.

The reference work continues to be done by Miss Dennett and Miss Clarke, each taking it for two weeks at a time; to their splendid service I paid tribute in my report last year, and I wish to repeat that not only do they find out for any customer anything which can be found out, but they pleasantly and diligently keep on helping at the circulation desk and in the mending of old books and the preparation of new ones; also in selecting books to go to the Dewey, Iron Works, Millville and Penacook schools, and to the deposit station

at East Concord. Miss Carr and Miss Brown, taking upon themselves more labor and responsibility as the senior assistants are periodically off in the reference room, rise finely to the occasion. I think nobody ever had a more faithful, loyal and capable staff than I have.

Referring again to the agency in Ward 2, it is under the interested and energetic oversight of Mrs. Herbert Stuart, in a live condition, albeit the favorites called for by her clientele are the ever popular western tales.

We are no better satisfied than are Penacook residents themselves with the meagre service the library renders there. Several causes doubtless contribute to the diminished use of the library's book-box which goes to C. A. Parker's store. Upon talking with Ward 1 persons about the drop from sixty to thirty volumes each Tuesday and Friday, we have been told that it is easy for most Penacookians to step into their car and run down here for any library material needed. That ideal agency which would be one attractively housed, suavely run and stocked with the best-sellers, is well-nigh impossible to establish anywhere. We should like to keep a surplus lot of books in Penacook where they could be looked over, safeguarded and charged out; but we have not yet found the way to do this; neither are we convinced as to how much use would nowadays be made of it. In West Concord, after running a simple branch during the summer of 1903 and some following months, we did not cut off those borrowers from having books handily near by, but sent up a boxful occasionally because Mrs. Sarah Quimby, living in the center of the ward, offered to give it houseroom and attention. Now, in her ninety-fourth year, she relinquishes that labor of love; we are greatly indebted for her long collaboration, and do not remember that she ever lost a book for us. Those taking out books at her hands had, however, dwindled to only two or three; and it is the approved usage (see *The Library Journal* for December, 1925) to discontinue stations if the circulation is small.

The enjoyment evinced during twenty-five years by the public in the successive picture collections hung in our hall,

amply justifies our keeping membership in the Massachusetts Library Art Club, which supplies these exhibits.

So much for things as they are. Turning to things as they should be, this report would emphasize the need of a children's room.

The time has come to state the case strongly, thus: It is not fair to the children of Concord for them to have neither a room nor a librarian of their own—a place in which somebody who likes youngsters should guide and inspire them in their reading, and also see that they do not walk off, intentionally or otherwise, with the books; the intrinsic loss of these is almost nothing, but it does not make for good character-building to have a child do what he pleases with city property. The boys' and girls' alcove in the hall is un-superintended, therefore we can keep only shabby old books there. In this library no child ever sees a beautiful edition of a juvenile classic. It would seem incredible to the American Library Association if it were told this was the condition of things in the capital city of a New England state.

Also, it might astonish our City Government if it realized that the library has, for all its heating on the second floor, one hot air register, eleven by thirteen inches. The assistant on that floor has to blow on her fingers, many a winter morning, and sometimes it is impossible for her to remain in the upper stack.

There are signs that Concordians are waking up to and becoming envious of the privilege granted by up-to-date libraries, namely, the run of the shelves. Of course persons are not forbidden to go to our narrow old alcoves, and many, especially students, resort there and benefit by handling the material along their lines of research; but the readers of light literature are wishing to help themselves, under the fond delusion that they would find the latest novels which we report "not in." We always keep in front of the desk a conglomerate array of books, but this is an insignificant part of our actual wealth of interesting volumes; and access

to shelves is now considered to be right and proper; this we cannot proffer freely in our crowded quarters.

Please visit and inspect modern, model libraries in other cities, and make comparisons for yourselves, even if they turn out to be invidious!

It is a matter for congratulation that the president of this Board, Professor Worthen, has exhaustively studied the full file of City Reports in order to ascertain every fact therein embedded about the library, so that he can present a survey of its beginning and growth, its activities and its needs.

Respectfully submitted,

GRACE BLANCHARD,

City Librarian.

REPORT OF CITY SEALER.

COVERING THE PERIOD JANUARY 1, 1925, TO JANUARY
1, 1926.

*To His Honor Willis H. Flint, Mayor, and the Board of
Aldermen:*

Three hundred and twenty-six (326) scales were tested and sealed during the past year. Ninety-seven (97) of these were adjusted before being sealed, and eight (8) condemned for repairs, which were later reinspected and sealed. Five hundred and fifty-seven (557) weights were tested and sealed, while ten (10) were confiscated.

There has been a large increase of installations of gasoline pumps; about thirty-five (35) per cent more operated in the city than in 1924. Two hundred and twenty-six (226) inspections of these devices have been made, thirty-five (35) of which were condemned for repairs and later were found correct and sealed. There were one hundred and ninety-five (195) liquid measures tested and sealed, and three (3) confiscated.

Ninety-one (91) packages of commodities put up in advance of sale were reweighed, and twenty (20) cart bodies used in the delivery of wood were measured.

There were eight (8) loads of coal in the process of delivery reweighed and eighteen (18) coal bins measured for individuals who desired to ascertain the amount of coal they contained. In co-operation with the state fuel administrator, I measured and estimated during October the amount of coal owned by the various dealers.

Respectfully submitted,

F. S. PENDLETON,
City Sealer.

REPORT OF THE CITY SOLICITOR.

To the Mayor and Board of Aldermen:

During the past year I have attended to a continually increasing amount of incidental details connected with the city business. For the first time I have been called upon to bring suit for unpaid taxes, and some small matters have been already put in suit with good results.

At the April term of court the suit of Lucille M. Ahern was tried and verdict rendered against the city in accordance with special report on that subject, at the time, given to the board. This case involves question as to the duty of the city in maintaining a railing upon a bridge or along an embankment for purposes of affording the people who stop in the highway a resting place. If the city is under no such duty it has no liability in this case. If it is under such duty it is liable. There has never been any question in my mind that the city was liable, given the duty, but all states having similar statutes to ours have in the past allowed that no such duty existed, and the Highway Department has always administered its affairs on that theory. The ruling of the Superior Court to the contrary left the city under the necessity of having this point absolutely determined by a decision of our Supreme Court which had never acted upon the precise point. I was, therefore, authorized to take the appeal, which was done, and the case is in order for argument the first Tuesday of January, and will probably be decided at an early date.

Only one suit has been filed against the city during the year—a petition of Alcide Belanger to be allowed compensation for his injuries while doing tree work for the city. This matter being covered by liability insurance, the attorney of the insurance company will have to defend the suit.

I have had some part in the revision of the ordinances and, while they have passed and go into effect as of January 1, there will be considerable amount of labor in getting them

through the press and editing other portions of the book including the charter.

By authority of your board I filed a bill in equity in December asking for the abatement of the building at 3 Pleasant Street Extension as a public nuisance. The court gave the decree asked for and ordered the building demolished within thirty days.

Respectfully submitted,

ELWIN L. PAGE,
City Solicitor.

REPORT OF THE PARK COMMISSIONERS.

To the Board of Aldermen:

The park commissioners herewith present their report for the year ending December 31, 1925.

APPROPRIATIONS.

Resolution No. 677, account earnings,	126.00
Resolution No. 677,	321.34
	—————\$7,272.34

EXPENDITURES.

Salaries and incidentals,	\$4,355.16
Superintendent's salary,	1,500.00
Completing house, White Park,	300.00
New shrubbery,	254.54
Portion fence, White Park,	250.00
Trees,	251.64
House, Rollins Park,	361.00
	—————\$7,272.34

The high price of labor and materials have seriously interfered with the improvement of the city parks for the last few years. Many needed improvements have been laid aside for that reason. The chemical toilets in both White Park and Rollins Park have become an actuality, and the extent of their use shows that they are filling a much-needed want. The dead trees in White Park have been removed to the full extent of the appropriation for that purpose, and

there are many more yet to be cut down. New trees should be planted to take the place of those removed. Many of the dead trees were nearly a hundred years old. The West Garden has been greatly improved, a concrete wall replacing the old fence along the street side. Beautiful evergreens have replaced some of the shrubbery that had become broken and ragged. Some of the old lattice work will probably be taken down the coming year, making the garden more open and visible. The iron fence around White Park has been continued along White Street another hundred feet, and on Center Street it now reaches to the corner of High Street. Another section should be built on White Street the coming year. At Rollins Park a new water pipe has been laid to the street, the old one having been completely filled with rust. A new drinking fountain has been secured and will be attached early in the spring of 1926. The disfiguring stumps have been removed from the pond and much of the underbrush has been cut out. The latter work will be continued until the entire park has been cleaned up.

During the summer the children of Concord took great interest, with the help of the *Monitor-Patriot*, in presenting a beautiful swan to White Park as a mate to the lonely one that has been there for many years. So much money was raised by the nickel contributions of the children that a pair of wild Canada geese were also added. These, with the flock of ducks owned by the superintendent, have been of great interest to the park visitors.

The playground committee have built a bathhouse near the upper pool, built toboggan slides and hockey rinks, and have kept the lower pond open for skaters. The accessibility of White Park and the natural environments have made this park peculiarly adapted to winter sports. The ball grounds are improved yearly, and the broad oval on Center Street is the scene of pageants given by the public schools.

At Doyen Park the cross walks are in bad shape. These should be completely rebuilt. The heavy traffic through this park warrants it being kept in the best condition.

Serious vandalism has been done to the property of the Ministerial Association in White Park, in the pine grove where the Sunday meetings are held. Seats have been demolished and other damage done during the winters. Steps have been taken to prevent this in the future.

An attempt has been made at White Park to provide beds of spring-blooming flowers. The schools have been asked to help educate the children not to pick the flowers. Progress has been made in this direction, and if the public will refrain from despoiling the flower beds efforts will be maintained. At Rollins Park the border of perennials has been replanted. The new Eastman Park at East Concord should receive attention soon, and be appropriately planted to shrubbery.

HEALTH DEPARTMENT.

REPORT OF THE BOARD OF HEALTH

To the Board of Mayor and Aldermen:

Following is the report of the Board of Health for the year ending December 31, 1925:

Mayor Willis H. Flint was ex-officio chairman, Dr. Charles H. Cook, secretary, and Dr. Sibley G. Morrill was the third member of the board. It was voted to hold quarterly meetings, and special meetings were called from time to time when deemed necessary.

Most of the routine work of this department is taken care of through the office of the sanitary officer. The annual report of this official to the Board of Health is transmitted herewith and made a part of this report, and should be consulted by those interested in the details of this department's activities.

The principal accomplishment of the Board during the past year has been the preparation of a new ordinance concerning the production, distribution, and sale of milk, cream, and ice cream. This ordinance, which was adopted by the Board of Health and the Board of Mayor and Alderman, practically without change, was the work of Mr. Charles D. Howard of the State Board of Health. We beg permission to take this opportunity to thank Mr. Howard for his unselfish and very valuable assistance respecting this matter.

Realizing that the best milk ordinance in the world would not function without an inspector qualified to put it into effect, the Board next began to look about for such a man, and believes that it was fortunate in securing the services of Mr. Austin B. Presby, a chemist of not inconsiderable experience. Mr. Presby was duly appointed milk inspector and provided with funds with which to equip a laboratory where chemical and bacteriological examinations of milk, cream, and ice cream could be properly made.

As the ordinance has been in effect for only a short period of time, with at least one important section not yet in effect, it would seem too early to try to estimate how effective our efforts along the above lines may prove to be, but we venture to predict that tangible betterments will follow.

Mr. Presby is submitting a report for the short period of his incumbency, and this is also being transmitted to your board and made a part of this report.

Respectfully submitted,

WILLIS H. FLINT,
S. G. MORRILL,
CHARLES H. COOK.

Board of Health.

REPORT OF THE SANITARY OFFICER.

To the Board of Health:

GENTLEMEN: The annual report of the sanitary officer for the year ending December 31, 1925, is herewith submitted, giving the various tables which show in detail the work of the department.

During the year 1925 there were 487 deaths, 198 of which were non-residents and not included in the death rate. Estimating the population at 23,000, the yearly death rate for Concord was 12.2 per cent. There were 285 deaths in the public institutions, and 202 in the nine wards of the city.

The city has been very free from contagious diseases, with the exception of a slight epidemic of scarlet fever during January, February, and March. All were mild cases and there were no fatalities. Sixty-three cases were reported during the year.

There were also twelve cases of diphtheria, twenty-four cases of measles, eleven of tuberculosis, sixty-one of venereal diseases, twenty-eight of whooping cough, and three of infantile paralysis, with no fatalities.

The Venereal Disease Clinic still continues to do most excellent and efficient work, and has treated 527 cases during the year. Quite a percentage of these have been given to children. The clinics are held on Friday evenings of each week, and are in charge of John M. Murray, M.D., assisted by Miss Myrtle H. Flanders.

Previous to February 9, 1925, when the work of inspecting plumbing was turned over to the city engineer, forty-two inspections were made.

One hundred and fifty-nine complaints and nuisances were inspected and the cause eliminated. There were also many minor complaints attended to. Frequent inspection of all alleyways has avoided any accumulation of rubbish in the business section.

Regular inspection of the shores of Penacook Lake and the reservoir has kept our water supply free from contamination of any sort. Frequent analysis shows our drinking water to be of the usual high standard of quality.

With the passage of the Building Ordinance, February 9, 1925, the plumbing inspection was transferred from this office to that of the building inspector. This has made it possible for me to devote much more time to the inspection of restaurants, markets, barber shops, children's boarding houses, and sanitary conditions of tenement houses outside of our sewer precinct, as well as many other health matters which needed more attention.

The total appropriation and expenditures for the year were as follows:

REPORT OF THE MILK INSPECTOR.

To the Board of Health:

GENTLEMEN: I herewith submit a report of the milk inspector's division of the Board of Health for the seven months ending December 31, 1925.

After the Milk Ordinance was passed in May, 1925, and a milk inspector chosen, it was found necessary to equip a laboratory. Actual work in the laboratory did not begin until August. The laboratory is equipped to make physical, chemical, and bacteriological analyses of milk. This together with frequent inspection of the dairy where the milk is produced will determine the quality of the milk and give the public information about its most important food.

The laboratory is also in a position to investigate and give the producer, dealer, or consumer detailed information about the quality and cleanliness of the milk supply used in Concord.

All records of analyses are filed with the Health Department and are open to the public. Not all people take advantage of this service, but it is available to all and should be used more fully.

A good part of the inspector's time is taken in advising producers, dealers, and offering suggestions that will aid them in making their milk supply clean and safe. We think this time is well spent, because a large part of the results obtained in the improvements of the dairy and pasteurizing plant are due more to education than to the arbitrary enforcement of the law.

Out of approximately one hundred and fifty producers who applied for the Federal and State tuberculin test, one hundred and eighteen of this number have had their cows tuberculin-tested, leaving about thirty-three persons whose cows are to be tested before next April. In cows this represents about 1,260 as tested, with about 240 cows applied for and waiting to be tested. The percentage of persons whose cows are tested as compared to the number not tested is about sixty per cent.

HENRY A. KIMBALL PUBLIC LIBRARY TRUST.

Income received, 1925,	\$100.00
Paid Carl H. Foster, city treasurer,	100.00

CHARLOTTE MERRILL CEMETERY TRUST.

Income to be used in perpetuity in keeping burial lot and monument in Blossom Hill Cemetery in good condition, namely: In keeping the soil properly enriched, the grass closely cut and watered, the monument and all other stone work thereon clean, and replacing said monument by a new one when necessary by reason of decay or defacement. The balance of the income, if any, is to be appropriated for the purpose of beautifying said cemetery.

Capital,	\$1,000.00
Income received, 1925,	33.75

Deposited in New Hampshire Savings Bank.

I have verified the trust accounts of the city in the hands of the Board of Trustees of Trust Funds, and find such trust funds invested and the income for the year 1925 accounted for as shown by the books of the trustees kept for that purpose.

ARTHUR E. ROBY,
City Clerk.

I hereby certify that I have examined the foregoing accounts of Carl H. Foster, city treasurer, for the year 1925 and find all items of receipts and expenditures therein properly recorded and authenticated by appropriate vouchers, and the several items correctly cast, and the cash balance to be twenty-six thousand five hundred fifty-eight dollars and fifty-four cents (\$26,558.54), and the balance on the Union School District Bond Account to be eight thousand five hundred sixty-nine dollars and forty cents (\$8,569.40), and as treasurer of the city water department, thirty-four thousand two hundred twelve dollars and ninety-three cents (\$34,212.93).

I have also verified the account of the special funds of the city in the hands of the city treasurer and find such special funds invested, and the income thereof for the year 1925 accounted for as shown by the books of the city treasurer for that purpose.
